

Lozano/Weber Family

Susan Lozano , B. S. General Studies, 2006

April Weber, B. S Nutrition, 2009

“After pursuing a Bachelor’s Degree since 1978, and attending various colleges, I was helping my daughter, April, look for a college to attend. While researching colleges I found TWU and the online degree programs. I decided that even if April didn’t want to go to TWU I would, so I could finish my degree at long last. I completed the online program for General Studies in August 2006, taking a full course load each semester while working full-time. Both of my daughters came to see me “walk the stage” for graduation in May 2006, and they both said they were very inspired. April started at TWU after I finished and will graduate next month with her Bachelors in Nutrition and I can’t wait to go back to TWU to watch her “walk the stage!”

Note: The photo was taken at the May 2009 commencement ceremonies where April did, indeed, walk the stage to receive her TWU degree.
