

Guest Accounts

Policy

Blackboard guest accounts may be requested for off-campus users for university-related reasons. The request must come from a faculty or staff member who assumes responsibility.

Guest accounts will be purged from the system each year. People needing access beyond one year must complete a guest account request each fall.

Procedure

A form must be filled out and submitted by a faculty or staff member. Once the guest account has been created, notification will be sent to the requestor with the login information. It is the responsibility of the requestor to enroll the user in the chosen courses.
