Announcement

The Washington Center for Internships and Academic Seminars

Exclusive Academic Seminar at the Democratic or Republican National Political Convention

Dear Dr Nicholas:

With the presidential nomination race well under way, now is the time for students to think about being on-site at the Democratic or Republican national conventions this summer. The Washington Center's tradition continues with its two national convention programs, once again endorsed by both party chairs. Through fieldwork, speakers, site visits, group discussions, and other activities, students can be a part of history-in-the making in Denver or Minneapolis-St. Paul.

For more information, please visit our new website, which has a new on-line application.
