

DEPARTMENT OF COMMUNICATION SCIENCES AND DISORDERS

NOTIFICATION AND ACKNOWLEDGEMENT

ON CAMPUS COURSEWORK ONLY

I understand and acknowledge that the Department of Communication Sciences and Disorders at Texas Woman's University does not offer an undergraduate online program. While TWU does offer a prerequisite program which includes online courses, post baccalaureate students must apply and be admitted to that program and undergraduate students admitted into the Department of Communication Sciences and Disorders are not eligible for those courses. The only exceptions will be due to advising errors on the part of faculty or when the students must take one (1) required course to graduate.
