

## **Distance Learner FSA Membership Information**

The Family Sciences Association is focused towards uniting all Family Sciences majors on all degree levels. Through various out reach community projects we help families by helping the community. We prepare all of our members towards success as a Family Sciences professional through networking, providing information from guest speakers in various careers in the field, and providing opportunities to attend state/national conferences. We want all members to have their own sense of independence, leadership and sense of belonging.

### **How do I stay connected to the organization & the other members?**

- There are several options in how to stay connected through FSA:
  - FSA widely uses the blackboard shell for staying connected with our members. There are monthly online chat discussions over the previous guest speakers that presented at our general meetings. The recorded chat discussion will be posted to a discussion board for members to respond to questions or comments if they were unable to make the chat.
  - All handouts from guest speakers and conferences will be mailed to all DL members once a month.
  - A discussion board titled “Get to know FSA members...” on the blackboard shell is for members to post bios about yourselves, your majors, your goals you want to achieve in FSA, and be able to meet the other members.

### **How do I become a Member of FSA and get involved?**

- A completed membership form must be completed at the start of each semester along with semester dues. Distant Learner FSA membership dues are \$15 a semester. \$5 of your dues contributes to our outreach community projects.
- Fill out an FSA membership form and mail with your semester dues to:

Family Sciences Association  
PO Box 425769  
Denton, Texas 76204-5769
