The Gamertsfelder administration opened with the Governor's Commission for Women meeting at the TFWC Headquarters for the launching of the "Healthy Dose of Knowledge" Project. This project consisted of a series of informational videos on women's health issues that were distributed by Blockbuster and the TFWC clubwomen. The TWU Research Fellowship grant was also begun and allowed for a \$500 stipend to be given to a researcher in the Woman's Collection at TWU. During her administration Texas gave \$25,000 in educational scholarships. Mrs. Gamertsfelder's special project "Youth" was given special attention and clubs donated over \$77,000 towards youth community projects. The flagpole at the Headquarters building was lighted during Mrs. Gamertsfelder's administration and a new sign was placed in front of the building.
