The theme "Preserving Our Tomorrows Today" was exemplified in the emphasis on our most treasured possession, our children. The SOAR Program (Stories Offer Adventure, Read) was given priority in every Board meeting and Convention. Books were gathered to be distributed to children. Over 532 mini-libraries were established to add dimension to SOAR. The Headquarters Building also received some needed attention. After many years of wishing, TFWC members saw the parking lot paved and the rear entrance revamped with added handicap access. The Georgian Room was taken from a state of disarray to one of beauty in a renovation project. A \$20,000.00 grant was received by TFWCHF which helped in meeting the needs at 2312 San Gabriel.
