At a called one-day convention in May 1945 Texas Clubwomen elected Mrs. Scott as TFWC President. During the war years only one convention was held and it was to re-group and revitalize the organization. Mrs. Scott's theme "Meeting Today's Problems" was accomplished with the transaction of business by mail and the *Federation News* as the communication medium. Leadership Development was promoted and it was stated that she steered club life through one of the most important eras in history, a time when women discovered the real values in club activities.
