

At Amedisys,
new therapy grads get
off to a great start.

AMEDISYS HOME HEALTH CARE THERAPISTS NEW THERAPY GRAD MENTOR PROGRAM

We believe that one of our greatest assets is our employees, and we believe in the success of our therapists. That is why Amedisys has developed a mentor program specifically developed for the hiring of new graduates of therapy programs. We believe that this dedicated mentor program will assist the new graduate in successfully transitioning from being a professional student to being an outstanding home health therapist. Highlights of the program include:

- 12-week therapy mentorship with an experienced home health therapist
- Graduated introduction of skills, from treatment through evaluations
- Regular co-treatments with mentor
- Ability to work with all disciplines to gain a full understanding of home health care services
- A training calendar developed to assist in the completion of all skills and activities
- Structured reviews at regular intervals utilizing an objective form, designed to highlight areas of excellence and opportunities for review/improvement
- Opportunity to participate in our Rehab Specialty Programs, including Balanced for Life
- Ability to earn up to 16 continuing education credits in your first 3 months of employment!

By the completion of this New Grad Mentor program, you will have:

- developed a total commitment to providing the highest quality therapy services
- integrated the application of theoretical knowledge gained in academic training
- refined your clinical skills in all aspects of the delivery of care
- initiated a plan for your total professional development
- developed clinical skills consistent with the current scope of practice in the profession
