

Frequently Asked Questions (M.A.)

My Bachelor's degree is not in Sociology. Can I still be admitted into your M.A. program?

Yes. We consider promising students with a bachelor's degree in other fields. Quite a few of our current students have a degree from other disciplines.

When is the deadline of application?

We do not have a fixed deadline. We admit graduate students all year long in fall, spring, and summer. However, we strongly recommend prospective students to apply at least two months before the starting date of a semester in order to ensure sufficient time to process the application and to prepare for enrollment. New international students need to apply at least six months before the starting date of a semester because visa application takes much longer to complete. Check with the TWU Office of International Education at <http://www.twu.edu/international-education/new-admit-international-students.asp/> for deadlines of graduate and visa application.

Where do I submit my graduate application?

You must submit your Graduate Application Online through *Texas Common Application* at <http://www.applytexas.org>.
