Workshop Descriptions

Success Strategies for the TExES

This workshop will address the structure and format of the TExES exams and general test-taking strategies important for success on all of the TExES exams. It is a prerequisite to the other workshops and will be presented along with the PPR exam sessions.

Mastering the PPR

This workshop will focus on the competencies of the Pedagogy and Professional Responsibilities TExES at all levels. Specific test strategies and processing and analysis of practice questions will also be discussed. It should be completed before taking the PPR Qualifying Exam. Attending the Success Strategies for the TExES workshop is a prerequisite for this workshop.

Mastering the EC-6 Generalist

This workshop will focus on the competencies of the EC-6 Generalist Exam. Practice in specific test strategies and processing and analysis of EC-6 Generalist questions will be provided. It should be completed before taking the EC-6 Generalist Practice Exam and after taking the Success Strategies for the TExES workshop.

Mastering the 4-8 Generalist

This workshop will focus on the competencies of the 4-8 Generalist exam. Practice in specific test strategies and processing and analysis of 4-8 Generalist questions will be provided. It should be completed before taking the 4-8 Generalist Practice Exam and after taking the Success Strategies for the TExES workshop.
