

### How Is the \$10 Fee Used?

The \$10 fee is used for the expenses of making copies of the exam and paying the proctors. It is also used to help staff the TExES PREP Resource Center and assists us in maintaining and updating the materials, services and resources provided through the TExES PREP Center. Resources and services of the Center are provided at no cost to TWU students and alumni and are available to other individuals for a small fee.
