

Who May Take a Practice Exam?

Anyone may take a TExES Practice Exam through TWU. It is not limited strictly to TWU students or former students. The fee (\$10) is the same for everyone. It is suggested that you take your content TExES practice exam (EC-6 Generalist, 4-8 Science, etc.) first, your PPR practice exam second, and then any supplemental exams you need to take (ESL, Bilingual, Special Education, etc.). You are strongly encouraged to take a specific practice exam at least once before taking your actual exam and to take it early enough that you have time to strengthen any weak areas identified by the practice exam before taking your actual exam.
