Year

Summer _____
Year

Advanced placement request for (a separate application must be submitted for each course requested for approval to challenge):

_____ Nurs 3612 – Introduction to Nursing Research

Exam will consist of a comprehensive exam and an evaluation of a published research article selected by faculty

_____ Nurs 3614 – Nursing Assessment Across the Life Span

Exam will consist of a comprehensive exam AND a demonstration of an assessment on an adult (live or videotape). The student must pass the comprehensive exam with a minimum of 72.

_____ Nurs 3804 – RN with Families and Groups

Exam will consist of a comprehensive exam and/or a scholarly paper.

_____ Nurs 4612 – Promoting Wellness in the Aging Family

Exam is comprehensive (multiple choice, matching, true and false, short answer and/or essay questions).

_____ Nurs 4803 – The Nursing Leadership and Management Experience

Exam is comprehensive (multiple choice, matching, true and false, short answer and/or essay questions).

_____ Nurs 4813 – RN High Acuity Nursing

Exam is comprehensive (multiple choice, matching, true and false, short answer and/or essay questions).

Instructions

1. The application is to be submitted to the RN Coordinator on the center at which you are enrolled by the stated deadlines:

July 1	Fall Semester Challenge
November 1	Spring Semester Challenge
April 1	Summer Semester Challenge
2. The examination will be given in the semester the course is offered and after verification of enrollment in the course that semester.
3. Students will be notified by the course faculty of the date and time the challenge examination or the deadline for submitting the required assignment.
4. All examinations/assignments and notification of the challenge results must be completed by the end of the first week of class for the semester.
5. Courses can only be challenged if they are offered in the semester the student wishes to challenge. The student must check the official class schedule or verify course offering with the RN Coordinator.
6. Students may take the challenge exam one time per course during their enrollment in the College of Nursing. Students who score 72 and above will receive the grade made on the challenge examination at the end of the semester.

Students who score less than 72 on the challenge examination may complete the course in the semester in which they are enrolled for the challenge exam or withdraw and re-enroll in the course during a later semester. Students who choose not to continue in the course will need to withdraw from the course prior to the last day to drop without penalty (see [academic calendar](#)). If the student withdraws after the last day to drop without penalty, the grade of “WF” is assigned and is subject to the College of Nursing Academic Policies.

A student who passes the challenge examination may take the course in hopes of earning a higher grade. The course must be completed in the same semester in which the challenge examination was taken. Students electing to continue in the course will receive the grade earned and not the challenge exam grade.

7. Students with disabilities are referred to the policy for individuals with disabilities in all course syllabi. Students must register with the office of Disability Support Services in Denton.
