Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Upon admission, transfer credit will be considered on a course-by-course basis by the Core Faculty. Documentation of the course(s) (e.g. course descriptions from graduate catalogs, syllabi, texts and readings) for which students seek transfer credit must be submitted.
 Practicum credits from other universities will not be transferred.
 The Graduate School allows up to 50% of a doctoral program's coursework to be transfer credit.
 Students entering with a Master's degree often obtain substantial transfer credit, typically reducing time to completion by 1 year.
