

S.I.T. For Success: Supplemental Instruction and Tutoring

Students 1: (expressing confusion) P with the little cone over the top?
Student 2: (expressing confusion) What's that mean again?
Student 1: What do we do? Our test is on tomorrow?
Student 2: Oh, what should we do?
(mumbled voices)
Student 2: Oh, what is this? Where did it come from?
Students 1 and 2: (reading aloud) Struggling in your classes? Consider attending SIT for Success for peer led help.
Student 1: Oh, look! Our class is here!
Student 2: Look that's our class, right? Okay.
Student 1: We should go here and get help right now!
Student 2: MCL 308?
Student 1: Yeah, it's downstairs.
Student 2: Yeah, let's go. Alright.
Student 1: This room? Oh, no, we're going in here.
(students mumbling in background)
Student 3: Hi!
Student 1: Hi, guys!
Students 1, 2, 3 and Course Assistant: Hi!
Student 1: So what does it mean when it's like peer led help, actually?
Course Assistant: So, its like.. We're your peers; we're students too and, you know, it's a safe environment where you can ask questions and, you know, it's not like in class where there's like a ton of people staring at you or something. We're just kind of one-on-one and you get to ask questions about anything you're having trouble with and get the help you need.
Student 3: What are you having trouble with?
Student 1: Confidence intervals..
Student 3: She just helped me with that! I can totally... I got this, I got this! So, this has to be big n because it's population.
Students 1 and 2: Mmhmm..
Student 3: So that... you've got to have that first.. and then.....

Are you having trouble with challenging concepts in your classes?
Would you like help from a student who has already successfully taken the course?
Do you feel intimidated speaking out or asking questions in class?
