

Student Life has definitely made a big difference in my TWU experience. Starting with orientation, Student Life was a very good resource for housing, transportation, low cost immunizations and insurances. During the school year, they are very active in getting the students involved like in SGA, health fairs and other intentionally planned events in the school. But most importantly, the Student Life staff is the best. They all are awesome student advocates and you can really see how passionate they are in taking care of the TWU students. They will go that extra mile just to make sure that your needs are met.
