GENERAL

These procedures pertain to travel for students who participate in an off-campus activity or even that is organized or sponsored by the institution, funded by the institution, using a vehicle owned, leased, or rented by the University; or travel required by a student organization registered at the University. The following procedures are considered to be the minimum standard; departments may mandate additional procedures.

TRAVEL REQUIREMENTS AND PLANNING

A designated staff member(s) and/or faculty member should accompany each student travel group. An exception to this can only be made by the appropriate Vice President or Dean. The advisor or faculty member overseeing the off-campus activity shall be identified as the Responsible University Official (RUO). The RUO is responsible for compliance with these procedures. In the event that a RUO cannot attend the function with the student group, the organization member(s) should be advised regarding the expected behavior from each student.

The University Disclaimer of Liability/Student Agreement must be completed by each participant and retained by the sponsoring department for one year.

A mandatory orientation must be provided for participants prior to the program and as needed on site. Information on safety, health, legal, environmental, political, cultural and/or religious conditions as they relate to the specific activity and appropriate emergency response measures must be included. Participants should be informed of as much detail about the trip as possible, including any known risks. Expected behavior and provisions for transportation accommodations must be clearly expressed.

Travel using University owned vans can only be driven to destinations within a 100 mile radius of the Denton and Dallas Centers or from the Houston Center. Travel beyond a 100 mile radius requires the use of a University bus with a University Driver employed by Facilities Management or a rented vehicle. A University bus can only be used within a 300 mile radius of the Denton Campus. Rented vans or buses can be used for trips within the continental US and within 300 miles radius of the...
campus. Rented vans can be driven by an authorized University driver or in the case of a bus, a driver from the company where the vehicle is rented.
